Hiring Manager
TikTok
[TikTok Address]
[TikTok City, State, Zip Code]

Dear Hiring Manager,

I am writing to express my interest in the Frontend Software Engineer position at TikTok as advertised. With a strong background in Full Stack Development and a passion for AI technologies, I am excited about the opportunity to contribute to TikTok's innovative projects and help drive the future of e-commerce on your platform.

Having recently completed an Advanced Software Development program in Full Stack JavaScript at Code Fellows in Seattle, I have honed my skills in HTML5, CSS, JavaScript, React.js, Node.js, and Material Design - all of which are highlighted as key skills for the Frontend Software Engineer role at TikTok. My experience working on projects like the Enhanced Card Store has equipped me with hands-on experience in developing user-centric platforms using technologies similar to those mentioned in the job description.

I am particularly drawn to TikTok's mission of inspiring creativity and bringing joy through its platform. The opportunity to work on projects that impact millions of users globally is truly exciting. I am confident that my technical skills combined with my ability to explain complex concepts in understandable terms make me a strong fit for this role.

Furthermore, I am impressed by TikTok's commitment to creating an inclusive workplace that values diverse perspectives and celebrates creativity. As someone who thrives in collaborative environments where innovation is encouraged, I believe I would thrive within TikTok's dynamic team culture.

I am excited about the possibility of contributing to TikTok's success and driving impact within the e-commerce space. Thank you for considering my application. I look forward to the possibility of discussing how my skills and experiences align with the needs of your team.

Warm regards,

Reed O Vogt
